WOMEN LEADERS OF ABBOTT

CONNECTING

ALL WHO INSPIRE GROWTH IN

WOMEN LEADERS.

Join the WLA Mentoring Program

Mentoring as a mentor or a protégé aligns with the WLA’s vision to “engage women to accelerate a supportive global organization that will enhance leadership experiences and help drive Abbott forward.”

Mentoring is a tool for enhancing personal and professional growth through a development relationship between someone with experience in a certain area (the mentor) and a fellow employee who wishes to learn from the mentor’s experience (the protégé).

Mentoring is an excellent tool for building strong relationships, learning more about the organization and experiencing diverse business practices. This process can provide the foundation to achieve success in one’s current and future roles. WLA encourages all members to participate in the mentoring program and to identify themselves as a member of WLA.

‘How to’ Registration Videos

Click here to view videos that show how to register as a mentor and how to indicate interest in leading a mentoring circle.

Mentoring Circles

The Mentoring Circle menu option is available to all employees. You do not have to register as a protégé or mentor in order to access this page.

WLA will sponsor WLA mentoring circles related to three specific topics. Those topics are:

Leading teams

P&L responsibility

Managing work /life

In order to sign up to lead one of these circles, type in “WLA – leading teams,” “WLA – P&L responsibility,” or “WLA – managing work life” in step 7 of ‘register as mentor’ where you are asked to list the topics you are interested in.

Register as a Mentor

As an Abbott employee, your skills and experience are among the company’s most valuable assets, and serving as a mentor enables you to guide, advise and inspire others to grow and contribute to our success. You also strengthen your own skills as a manager, communicator and problem-solver, while learning from others’ developmental experiences. It will take just a few minutes to register.

Go to the Abbott mentoring website at <http://mentoring.oneabbott.com>. The Welcome page, which you see when you log in for the first time, includes detailed information and instructions about the program.

Click ‘Register as Mentor’.

Plan to register as a mentor within 2 weeks of receiving this communication. Protégés will also receive an email communication to register, and sign up with a mentor or for a mentoring circle (as mentioned below)

Being a mentor or a protégé or both via WLA will strengthen this Abbott network. Best practices can be shared, and leveraged. Ongoing learning and development will occur through this process, benefiting the individual and the business. The WLA encourages its members to participate in this valuable program.
