

You woke up with  
cold-like symptoms

## NOW WHAT?

Waking up with symptoms comes  
with a whole new meaning  
as allergy season converges with  
the COVID-19 pandemic.

# IS IT **ALLERGIES?**

**SNEEZING**

**HEAD AND/OR EARACHES**

**ITCHY EYES, NOSE, MOUTH  
OR INNER EAR**

**There's room for confusion.**

Runny or stuffy nose, a standard cough and tiredness can be shared symptoms of seasonal allergies and COVID-19.

IS IT  
**COVID-19?**

DRY COUGH

MUSCLE ACHES

FEVER

**When in doubt, TEST.**

Our BinaxNOW COVID-19 Self Test  
can help confirm if your symptoms  
are related to COVID-19, whenever  
and wherever you need it.

**Abbott**
