

Design Teaching in Brazil:

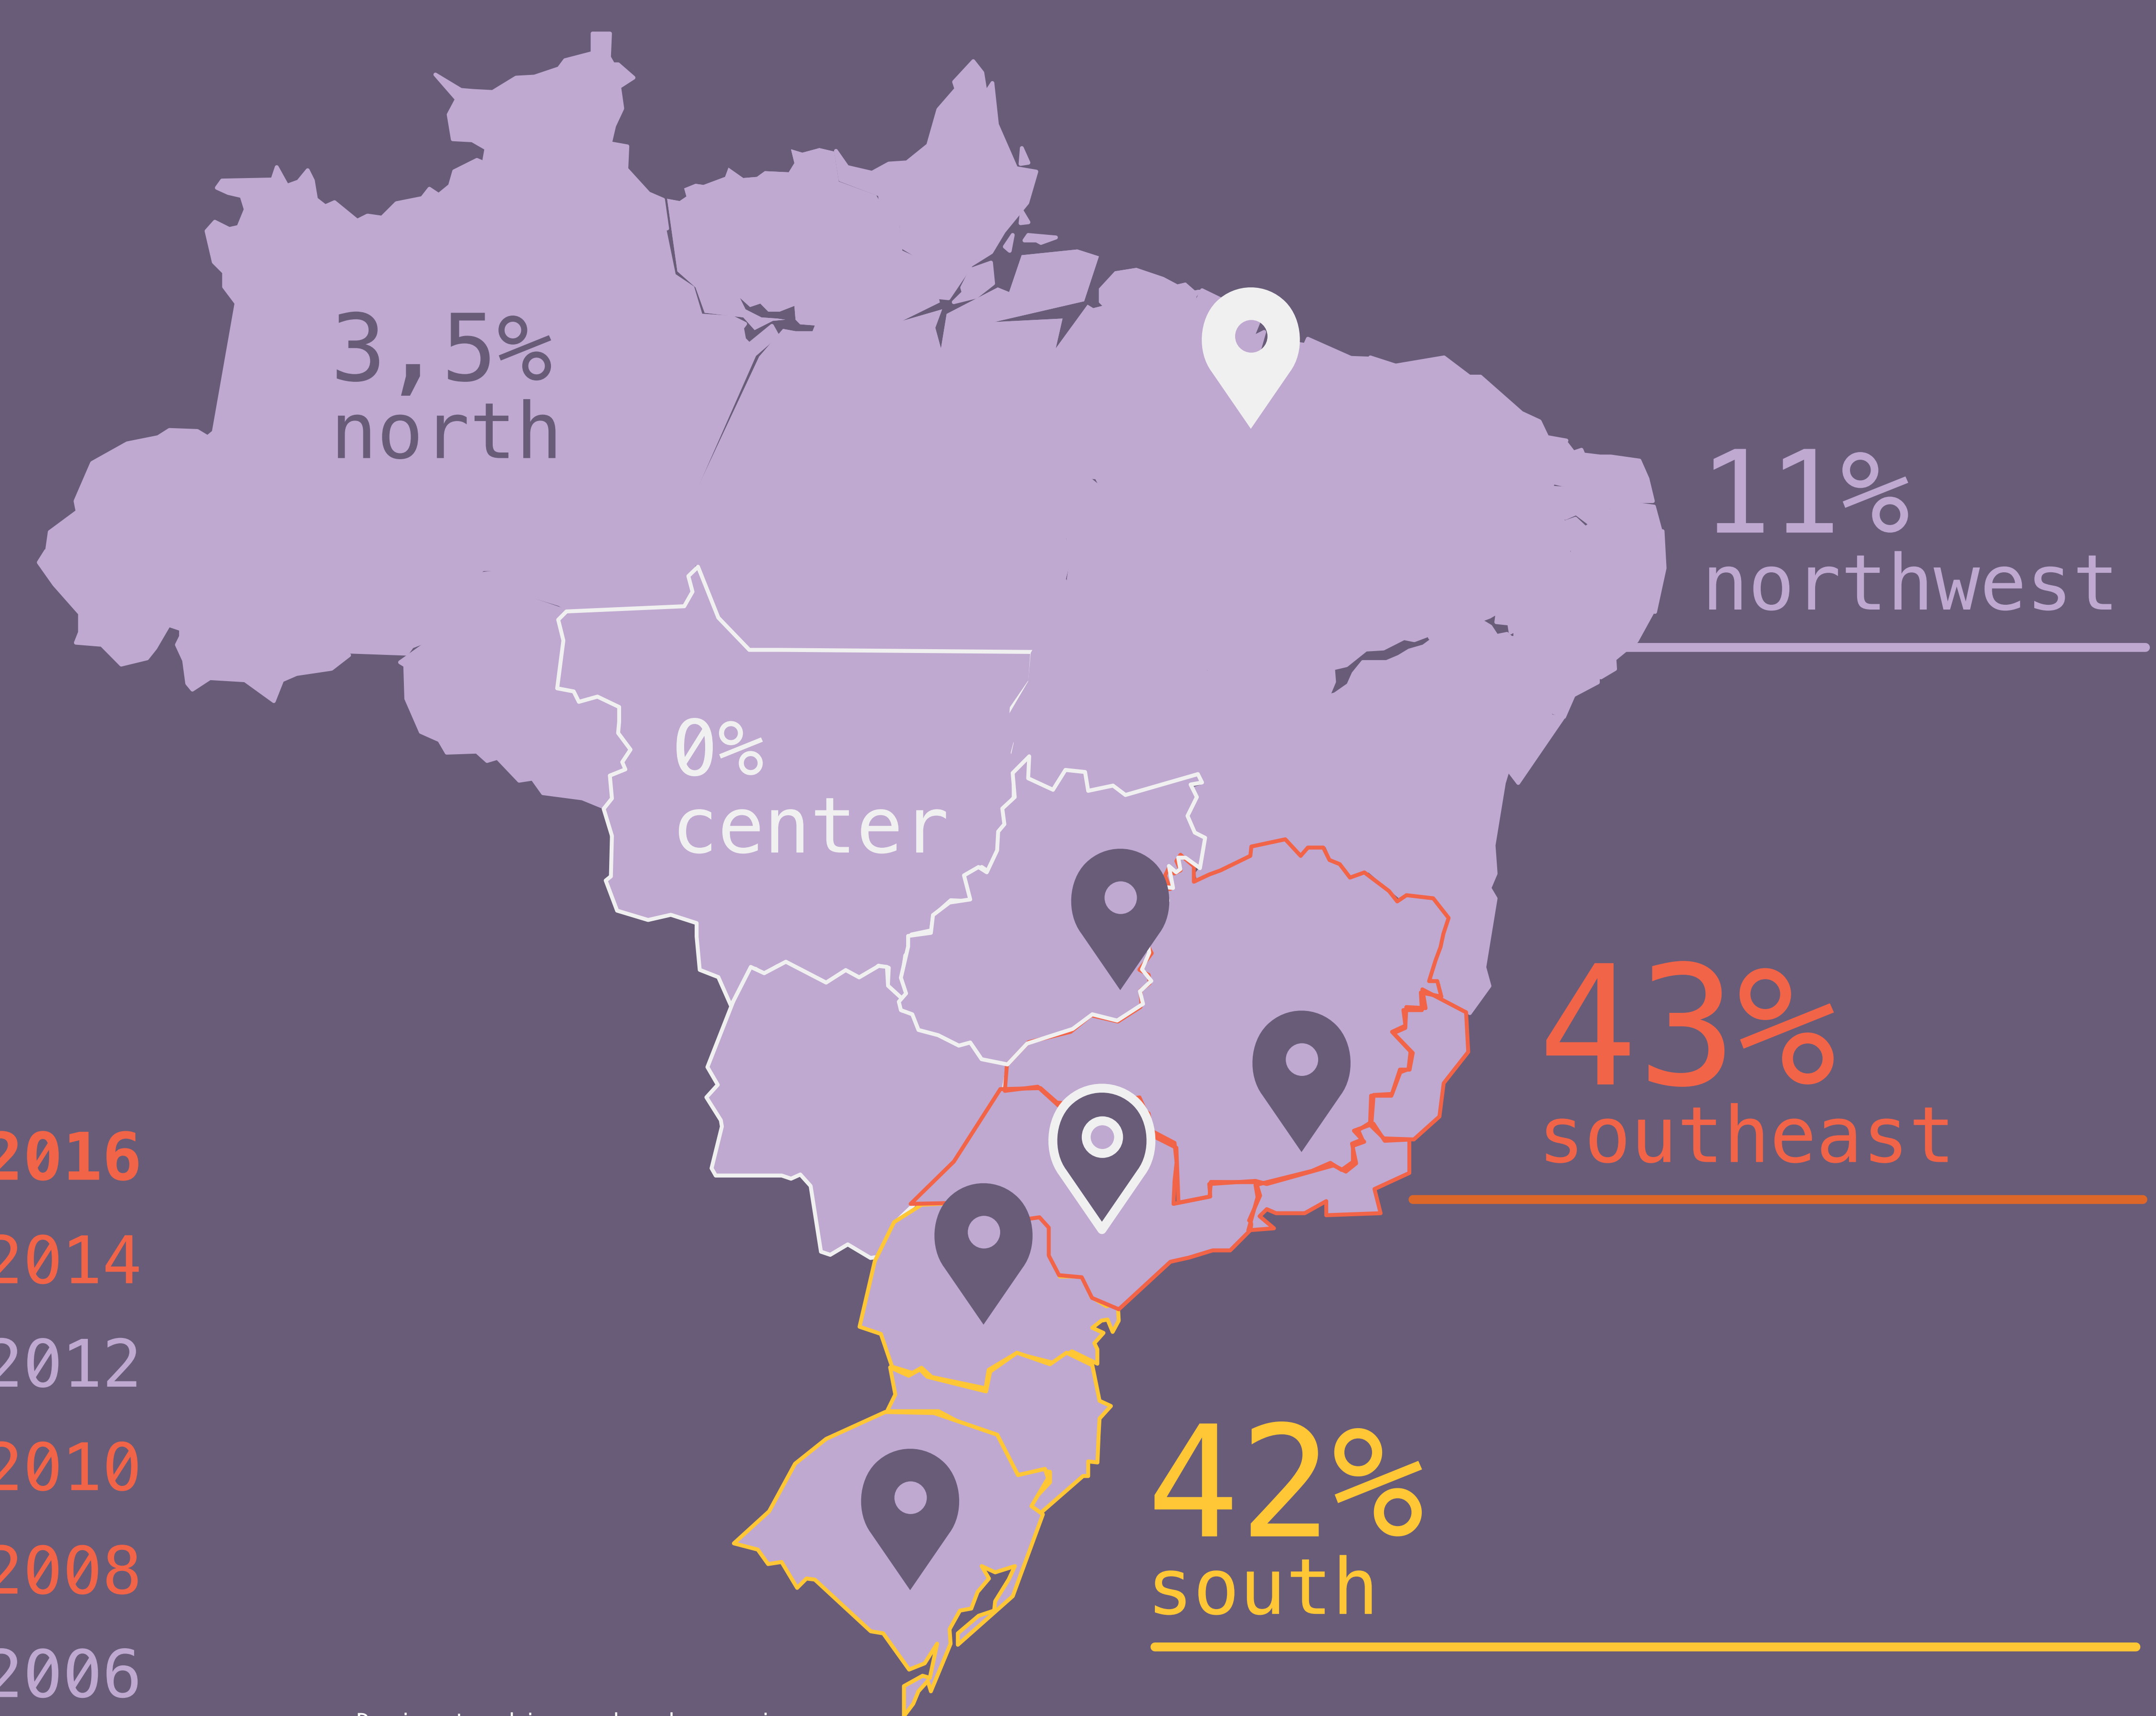

14 years of design pedagogy papers in P&D Brazilian Congress.

P&D Design Congress is one of the most relevant events in Brazilian scenario. In twenty-four years and twelve editions, this event have been associated with high quality papers and researches, which are selected by many relevant scientific journals. This research is focused in design teaching and pedagogy related papers. Utilizing bibliometrics analysis method, two hundred and seventy papers were selected in eight editions, from 2002 to 2016. This fourteen years of published works were systematic reviewed using nine categories.

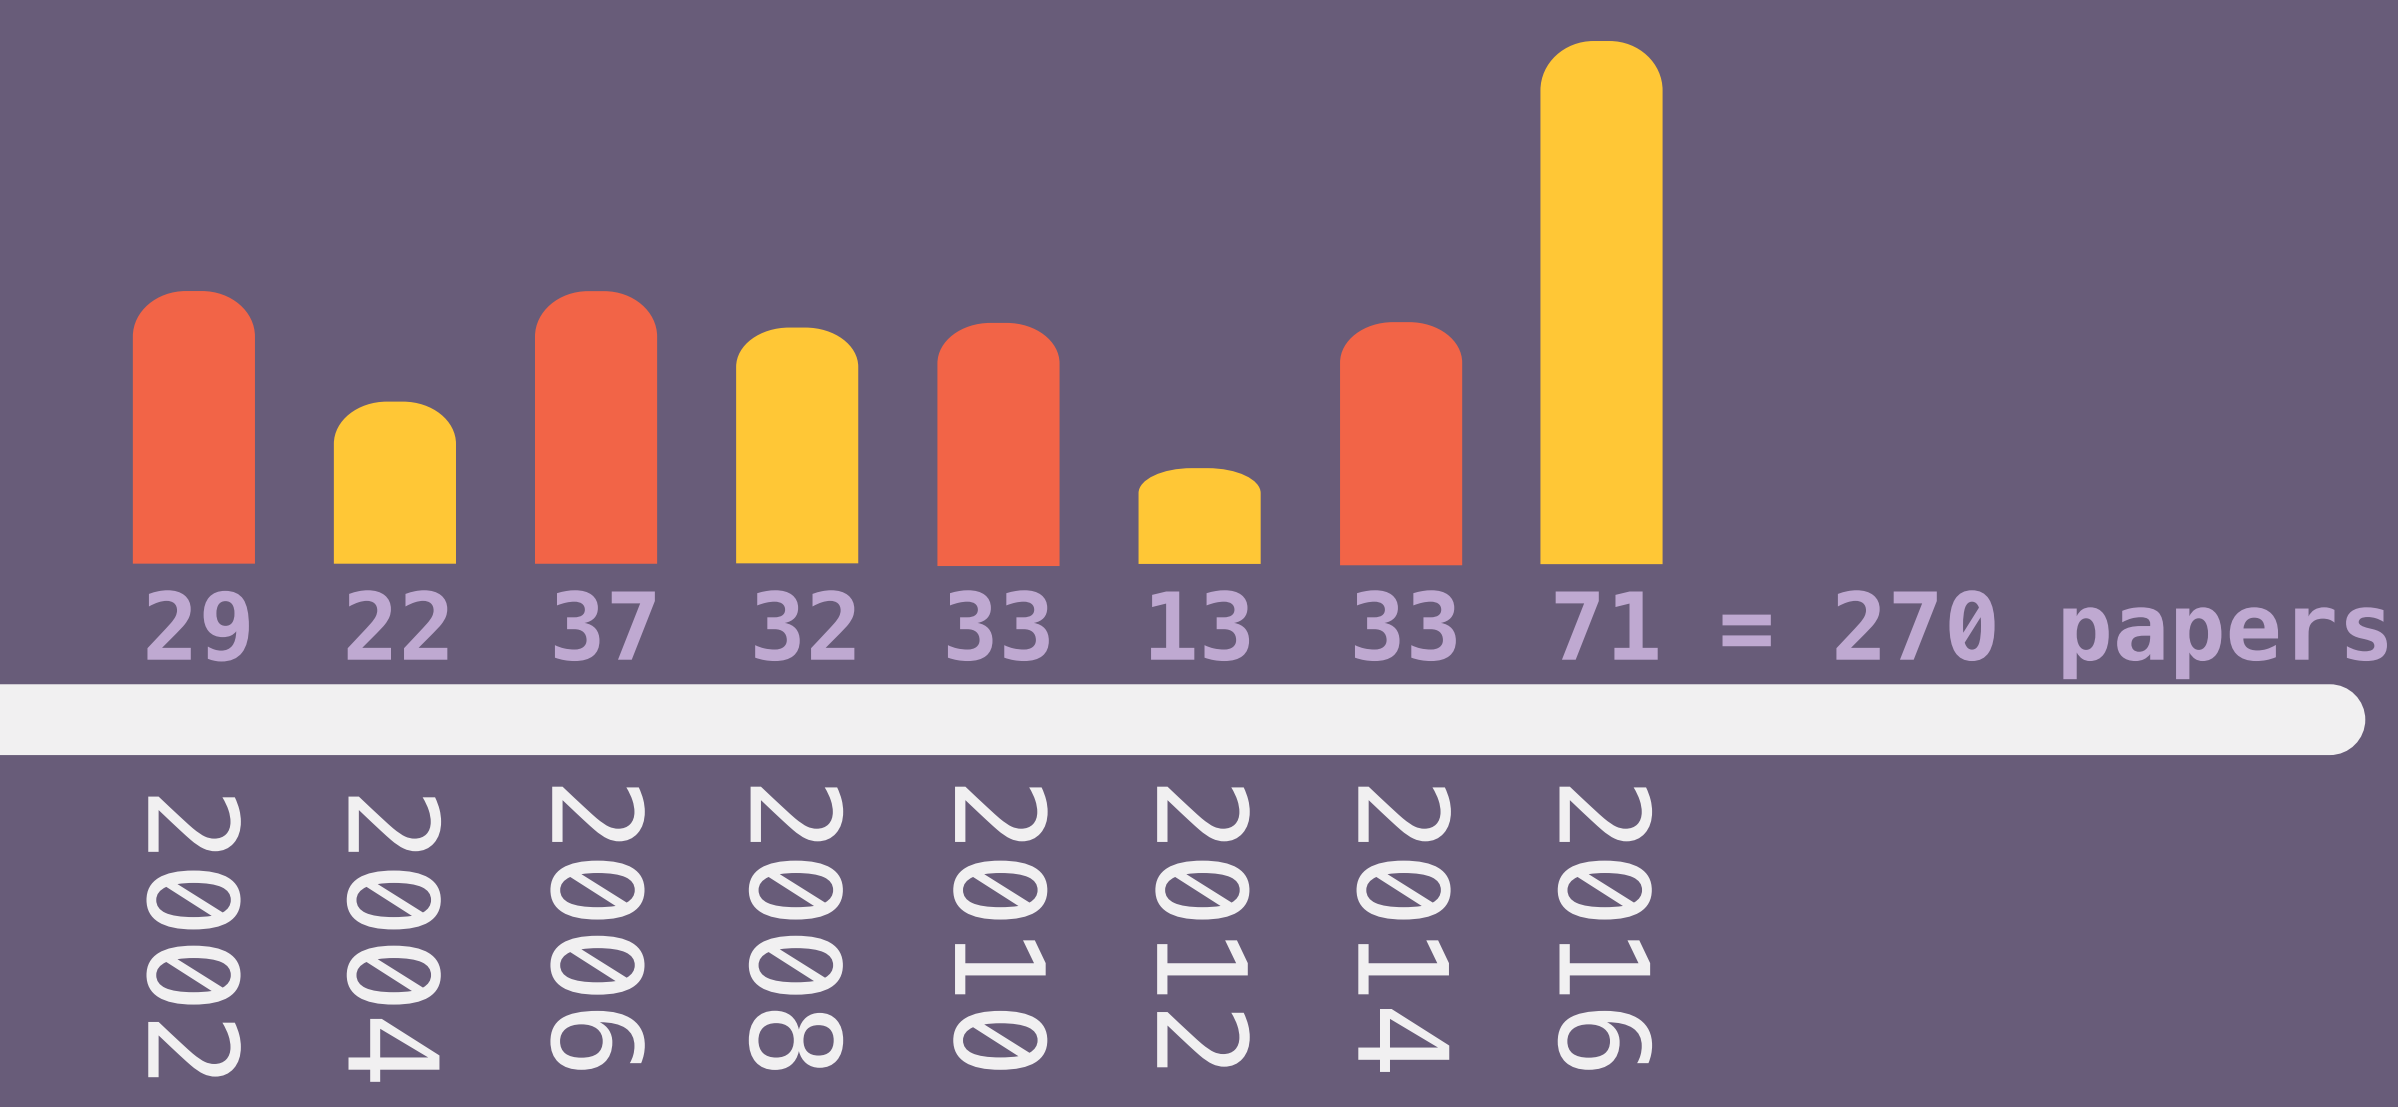

PAPERS PER REGION IN 14 YEARS:

CONGRESS LOCATIONS

Design teaching and pedagogy in Brazil is an important field. The increase of nearly 100% of published papers for this theme in P&D's 2016 edition could signalize an interest on educational related matters for design and set a renewal for design future in Brazil.

PAPERS PER YEAR

THEMES

The themes and sub themes related to design teaching for submission of works shows continuous changing. The last two editions, however, were more specialized and meticulous organized.

TOP 10 UNIVERSITIES:

- UFRGS
- UFSC
- PUC RJ
