

FEEL THE FLOW

Hydro-Guide Air Induction System

The functional hood with Hydro-Guide Air Induction System enhances engine performance. Cooler air helps lower engine temperature and the system helps separate water from the intake if traveling in wet conditions.

Shown with aftermarket Jeep Performance Parts and may not be installed by a Chrysler, Dodge, Jeep, Ram dealer on any vehicle prior to its first retail sale, and may not be sold or financed in conjunction with the sale of a new vehicle. FCA US LLC does not authorize the installation of these on any vehicle prior to its first retail sale.

HEAR THAT HEMI® V8 ENGINE ROAR

Dual-Mode Exhaust

With the simple push of a button, the Dual-Mode Exhaust System can be toggled between quiet and performance exhaust modes. Quiet mode lets you moderate exhaust sound, while performance mode opens the electronically controlled valves, enhancing the sound. Plus, this system will automatically revert to performance mode while carrying heavy loads or running at high RPM, helping minimize back pressure and maximize horsepower.
