

# Advancing quality of care through debate & discussion

Join us for more debates & deeper analysis in 2025.

## Cutting-Edge Insights

Elevate your practice and gain valuable knowledge on the latest advancements in research and treatments for blood cancers. Delve into current research, updates, and trends in the field while participating in thought-provoking debates and presentations on the current state of hematologic malignancies.

## Multidisciplinary Perspectives

Benefit from a unique, multidisciplinary approach. Our experts from various disciplines collaborate to provide a comprehensive exploration of complex topics, helping you gain a deeper understanding of the disease and its management.

## Engaging Format

Utilize critical thinking skills and share ideas in an interactive, engaging format. Participate in debate-style sessions, intimate discussions, and thought-provoking exchanges to build lasting relationships with leading faculty and peers. This unique opportunity will deepen your knowledge and expand your professional network.
