ABOUT THE KAWAI BRAND.

The inspiration for the Kawai brand comes from Emirati entrepreneur and owner of Al Braik Investments, Alawi Al Braik. It is the sister company to the highly-acclaimed fine-dining Wakame restaurant in Downtown Dubai. According to Al Braik, "Kawai takes Asian-inspired street food to the next level, and offers customers something that delivers on quality and flavour, while still remaining affordable and accessible. As a community-based homegrown business, we know what our customers want, and not many other casual-dining chains can offer the same."

"The brand has grown tremendously since it started three years ago with a few pop-ups. We're excited that Kawai's first food truck has opened in Sharjah, and it's our hope that the Emirati-based business will continue to expand across the UAE and eventually franchise throughout the GCC." Customers can also expect to enjoy a new Kawai Restaurant, opening soon in Dibba Fujairah.
