

Vanderbilt Women's Heart and Neurology Symposium

Women's medical issues are unique from birth throughout the lifespan, underscoring the value of health care dedicated to meeting their specific needs.

The Women's Heart and Neurology Symposium offers a case-based, female-focused educational program to strengthen clinical knowledge surrounding cardiovascular and neurologic care for these patients.

Experts from Vanderbilt's faculty will discuss key issues for women of reproductive age, as well health challenges post-menopause. Breakout sessions will examine cardiac and neurological topics in-depth, including:

- Hypertension management
- Medical weight loss
- Autonomic dysfunction
- Hormone replacement therapy for medically complex patients
- Contraception counseling for patients with cardiovascular or neurologic conditions
- Cognitive function
- Coronary microvascular dysfunction

This symposium is intended for physicians, advanced practitioners and nurses and has been approved for *7.5 AMA PRA Category 1 Credit(s)*.™

March 21, 2025 | Franklin, Tenn | 8 a.m. – 4 p.m. | 7 a.m. breakfast and registration
