

Vanderbilt Heart and Vascular Institute

# Women's Heart Center

**Phone:** 615-322-2318

**Web:** [VanderbiltHealth.com/WomensHeart](http://VanderbiltHealth.com/WomensHeart)

**Location:** 719 Thompson Lane, Suite 22100, Nashville, TN 37204

## Key Highlights

- **Team Approach:** Our multidisciplinary team of experts sees patients in one convenient location, including cardiologists specializing in women's health, obstetricians, maternal-fetal medicine specialists, mental health specialists and dietitians.
- **Specialized Expertise:** Our team has the expertise to treat cardiac conditions that are more common in women, such as spontaneous coronary artery dissection (SCAD), myocardial infarction with non-obstructive coronary arteries (MINOCA), stress cardiomyopathy and coronary vasospasm.
- **Pregnancy Care:** Our nationally recognized cardio-obstetrics experts partner with referring providers to address the specialized care women need when facing a cardiovascular condition before, during or after pregnancy.
- **Recognized Care:** Vanderbilt University Medical Center is ranked among the top in the nation for cardiology and heart surgery, as well as obstetrics and gynecology care.
