

What research is out to help demonstrate positive usability?

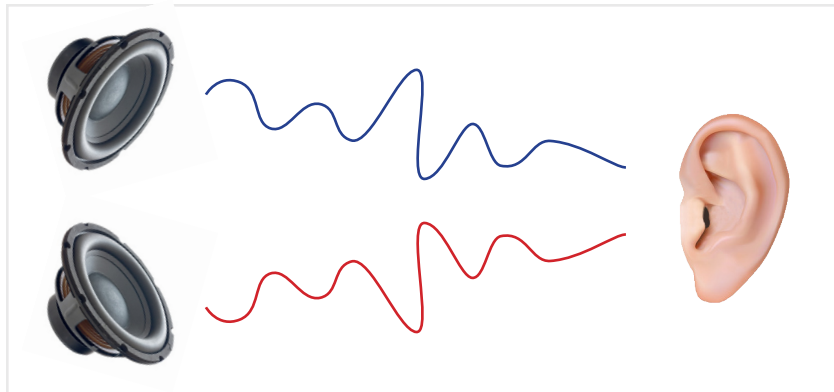

1

1. NuMetrex's Heart Sensing Sports Bra

The NuMetrex bra has electronic sensing technology integrated into the fabric and offers a new level of comfort to women wishing to monitor their heart rate while they exercise.

2

2. Sound Cancelling Technology

Used in many noise cancelling headphones, active noise cancellation plays back the inverted sound of a noise you wish to cancel. These inverted waves come together and cancel each other out.
