

SHELDON

AN **omnigo** SOLUTION

Meet SHELDON... Your Re-opening Solution.

SHELDON

Contactless thermal scanning and intelligent recognition system

Mitigate Risk

Reduce cost

Return to work safely

SHELDON combines contactless temperature screening and intelligent identity recognition with actionable tracking capabilities...
...that help you mitigate risk, reduce cost, and return to work or campus with health and safety top of mind.

Minimize the risk of staff exposure in capturing temperature readings.

SHELDON is a contactless kiosk that captures temperature readings without requiring staff to be in close proximity. It can be monitored without directly exposing personnel to potentially infected individuals.

Reduce your health and safety screening costs.

Many organizations are currently spending hundreds of thousands of dollars per year on additional health and safety staffing. SHELDON can be manned remotely, requiring fewer staff.

Safeguard your facilities with end-to-end tracking.

But SHELDON provides much more than contactless temperature measurement. The kiosk is integrated with Omnigo's innovative identification and tracking platform, allowing you to validate and alert your staff of potential threats to health and safety. It also captures

- **End-to-end tracking and risk management intelligence**
- **Rapid ROI by reducing screening costs**
- **Screens at speed and scale**
- **Mitigates risk of non-compliance and business interruption**
- **Installs quickly with no impact on IT staff**

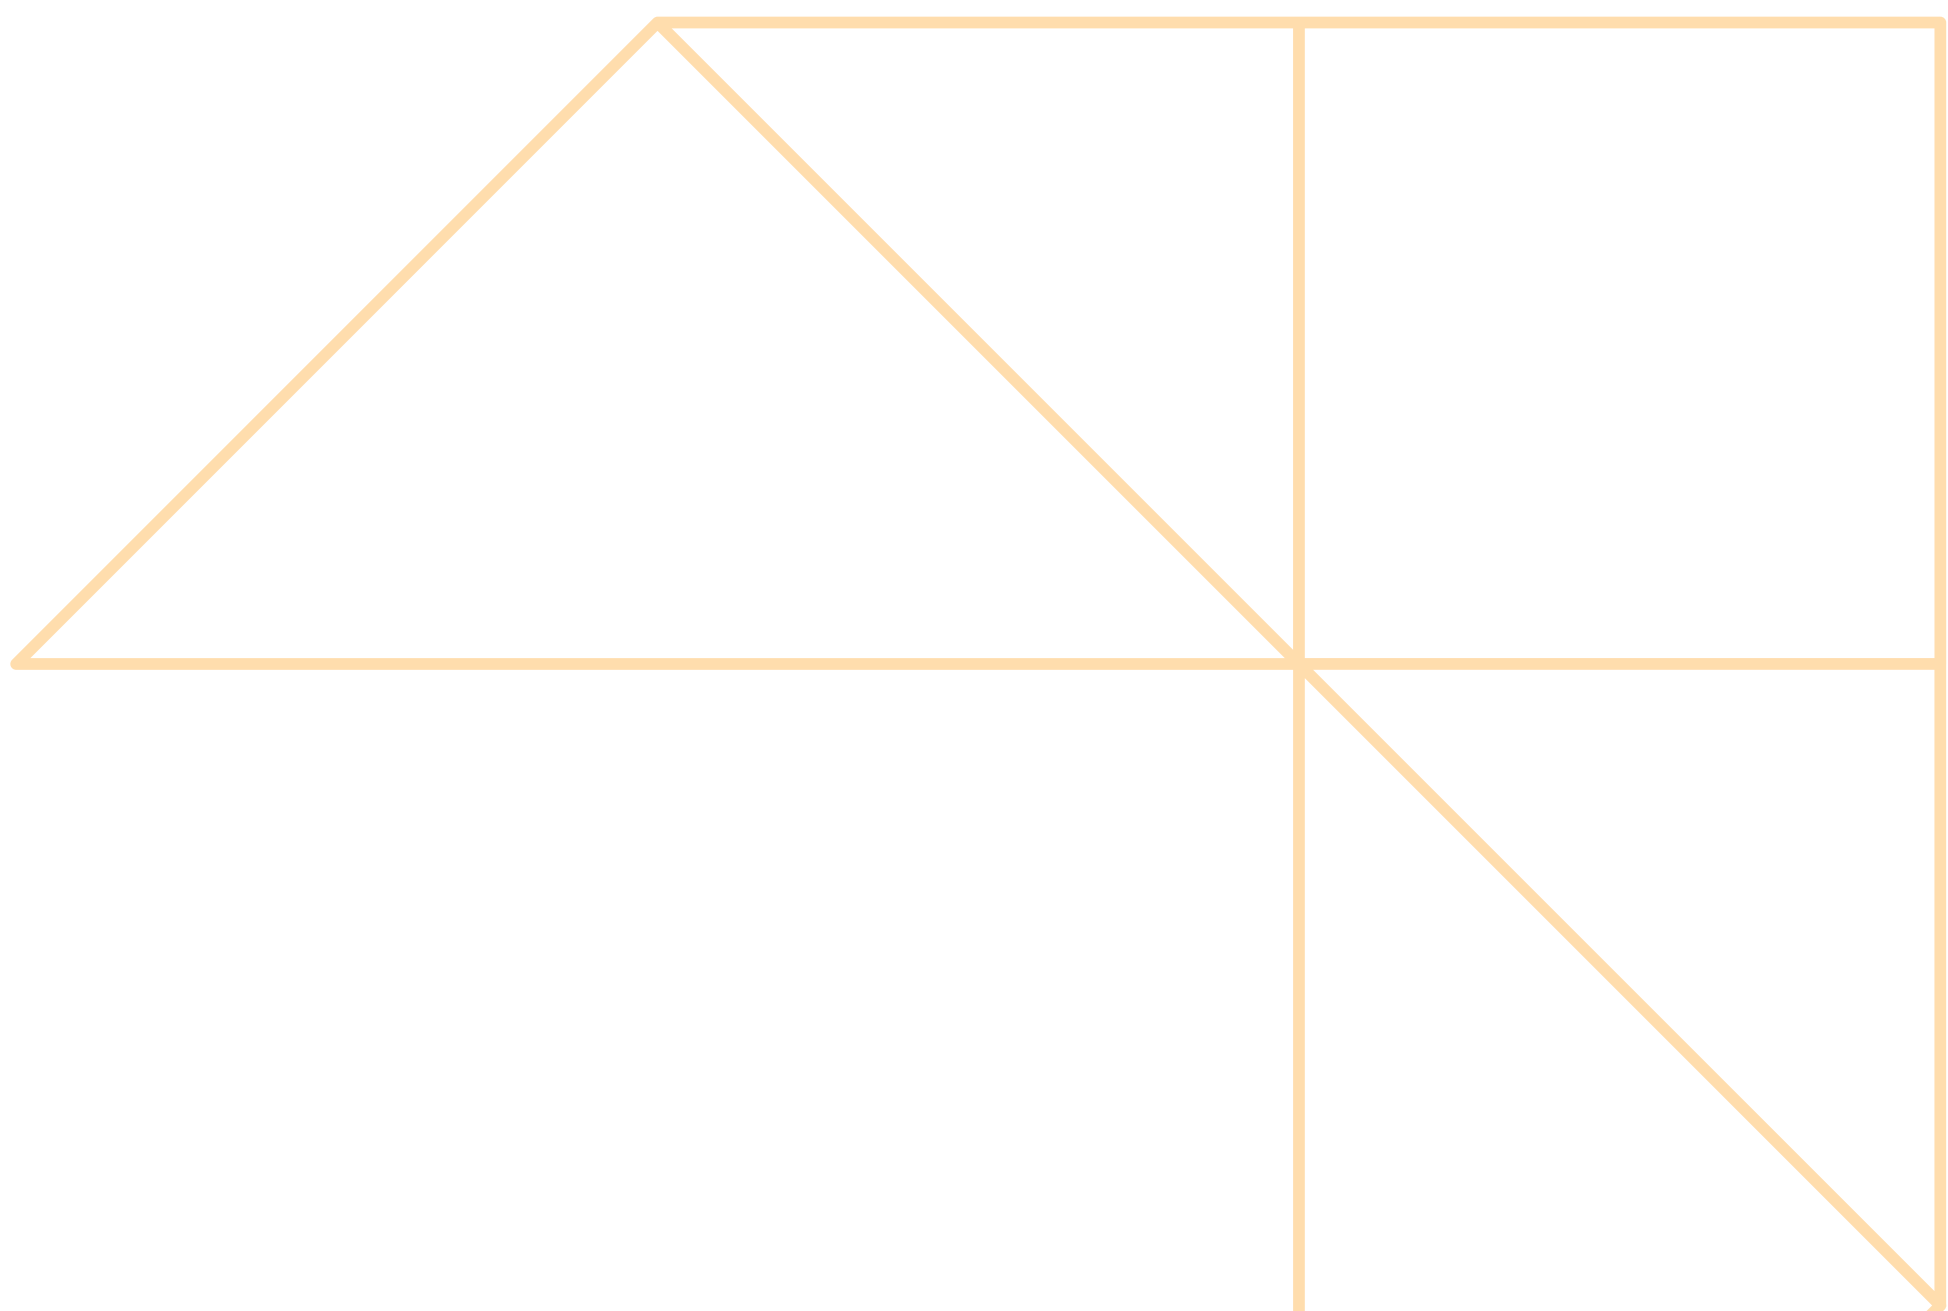

SHELDON safeguards your facilities with end-to-end tracking and risk management intelligence...

- Delivers rapid ROI by reducing health and safety screening costs...
- Screens up to 30 individuals per minute
- Mitigates potential risk of non-compliance and business interruption
- And installs quickly with no impact on IT staff or existing infrastructure.
