

VERTICAL

UBER model GVP certified
virtual PharmacoVigilance
resources in 50+ countries

What is VERTICAL?

VERTICAL provides GVP certified virtual PV resources on an Uber model in 52 countries

- You only pay for the time you use the resources
- No long term or even short-term contracts
- All resources are GVP certified
- All resources have minimum 2 years experience working for Top 10 Pharma with company provided training and certifications
- All resources have at least a life sciences degree
 - Doctors
 - Nurses
 - Pharmacists

Cost of VERTICAL resources are typically 60% lower than hiring a PV resource on contract or full-time

- No bench cost
- UBER model gives you the flexibility to only use them when needed

How does it work?

1
When you have a PV project,
you contact VERTICAL

2
You tell us the country or language you
need the resources for.

5
You are billed monthly by VERTICAL
only for hours used

4
Resource works remotely in an UBER model

- You have a single point of contact – your VERTICAL dedicated Project Manager.

3
Resources go through your company
PV training along with project training.

- Once the resource is qualified, you can assign work

Languages we have resources for

- EU 5 and Eastern European Languages
- Nordic Languages
- East Asian Languages (Japanese, Korean, Chinese)
- South American Languages (Spanish and Portuguese)
- Arabic Languages
- African Languages
- Indian Languages
- **...and growing**

What kind of pharma project experience do Vertical resources have?

- Reviewing Patient Support Phone Calls in world languages to find adverse events
- Reviewing Hospital Patient Notes to find adverse events
- Translating Clinical Documents
- Reviewing Social Media comments
- Reviewing market research data (transcripts, survey open ended questions etc.)

Thank You
