

WIRELESS SOLUTIONS

Made for your day-to-day

With more and more wireless products on the market, making connections between devices can be challenging. To navigate listening environments with high wireless traffic, our 900sync™ technology provides a powerful solution. Its high bit-rate streaming allows for ear-to-ear phone streaming and wireless capabilities for single-sided hearing loss.

SURFLINK®

Our compact cell phone transmitter, SurfLink® Mobile 2, is an assistive listening device, media streamer and hearing aid remote all rolled into one.

SurfLink Mini Mobile is a small and simple cell phone streaming solution. With this device, you can connect any Bluetooth-ready device to your Now IQ hearing aids.

SurfLink Media 2 is a set-and-forget media streaming solution that connects to TVs, MP3 players and more, to wirelessly stream audio directly to your hearing aids.

Our SurfLink Remote can be used to adjust volume, change memory modes, go in and out of streaming mode and much more — all with the push of a button.

Our discreet, lightweight SurfLink Remote Microphone 2 is worn by a conversation partner to aid patients in one-on-one conversations in difficult listening environments.

WIRELESS SOLUTIONS

Made for your day-to-day

We believe better hearing helps you feel connected to your world in a richer and more personal way. **iNOW™ iQ** intuitively connects to your Apple® and Android devices via Bluetooth® technology and **NuEar's** easy-to-use **TruLink®** app.

TRULINK®

*Get the TruLink
Hearing Control app
from the App Store®
and Google Play™*

Personalized Control

Personalized Control in the TruLink app lets you make adjustments to SoundSpace and Noise Manager to suit your preferences in different listening environments.

Phone Calls

Answer your calls with the touch of a button and hear an entire conversation streaming directly to your iNOW hearing aids via Bluetooth® technology.

Remote Control

Using the remote control feature in the TruLink app, you can change volume and switch memories on your hearing aids right from your iPhone.

TruLink Adaptive Car Mode

With TruLink's Adaptive Car Mode, iNOW hearing aids will automatically change to a setting designed to reduce the annoying sounds of driving and enhance your overall driving experience.
