

# UPGRADE YOUR PRE-PRESS EQUIPMENT

Improve your shop's efficiency and repeatability by upgrading to high-quality equipment and tools from Chromaline. Supported by an experienced team of technicians nationwide, our reps can assess your process, advise cost-effective options, install, and help you maintain consistent results. Automated systems nearly eliminate human variables and will do tedious and hazardous tasks with minimal interaction. This reduces overall labor hours while increasing productivity.

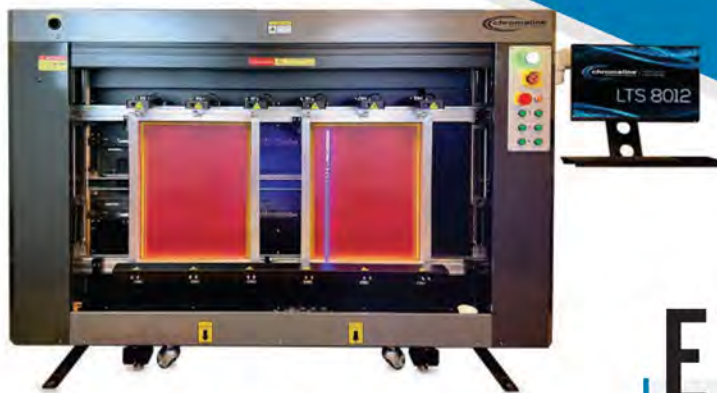

## ProCoat 2536

- Fully programmable
- Dual Screen Coating
- Simple coating troughs attachment
- Carriage enclosed for safety

## COATING

## G-Coat 406-S

- Perfect reproducibility of stencil thickness
- Compact size with low maintenance
- "Plug & Coat" requires no professional installation
- Coat both sides simultaneously, or one side only

## EXPOSURE

### Laser-To-Screen Systems

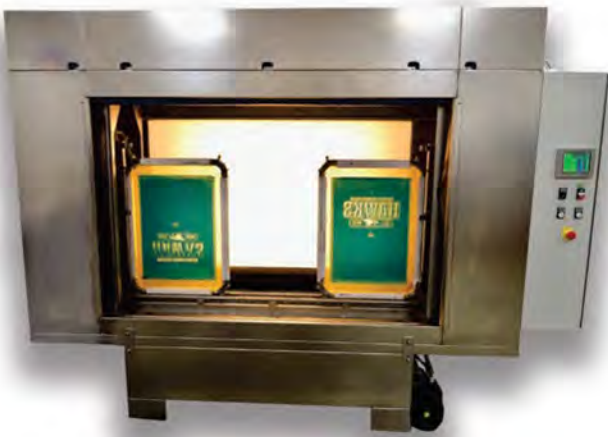

- Increased Efficiency
- High Resolution
- Expose two frames simultaneously
- No films, ink, wax, or glass
- Easy-to-use
- Multiple size and resolution options

### LED Exposure Units

- Available in two sizes: 26" x 21" and 26" x 31"
- Fast, uniform and high-resolution exposures
- Long lasting LED light strips
- 5-year limited warranty

# WASHOUT

## Zentner Aquatec

- Auto stencil developer
- German design and build
- Fits 1, 39"x59" frame or 2, 23"x31"

## Pro Washout Booths

- Available in many sizes
- Simple to install drainage
- Sturdy polypropylene design
- Backlighting helps you develop the details
- Prevents screens from sliding when pressure-washed
- Built-in wand holders

## Dip Tanks

- Assists in removing both ink and emulsion
- Multi-frame capacity
- Reduces chemical consumption
- Optimizes your time, allowing you to multi-task

# DRYING

## Drying Cabinets

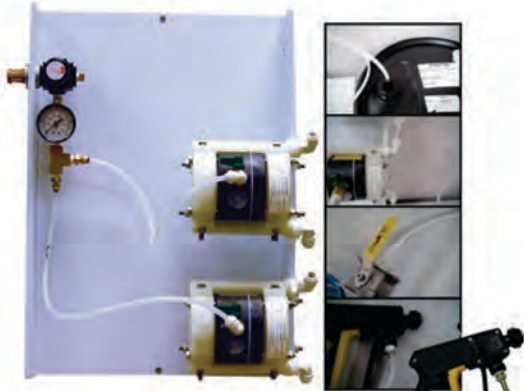

- Available in either single rack or dual rack capacity
- Available in either one side or pass-through design
- Uniform chamber temperature
- Thorough, high efficiency screen drying
- Dries emulsion coatings faster with consistent exposure times
- 20 screen capacity, rolling racks available

## MagiVac Nozzle

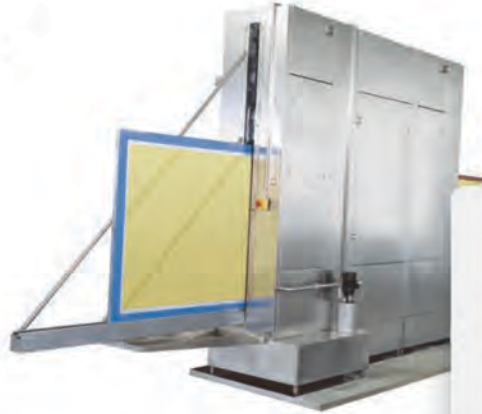

- Removes excess water from your screen
- Speed up the dry time of your screen before coating
- Attaches to most shop vacs with 1-1/4" to 1-1/2" hose
- Designed to avoid damage to your screen

# RECLAIM

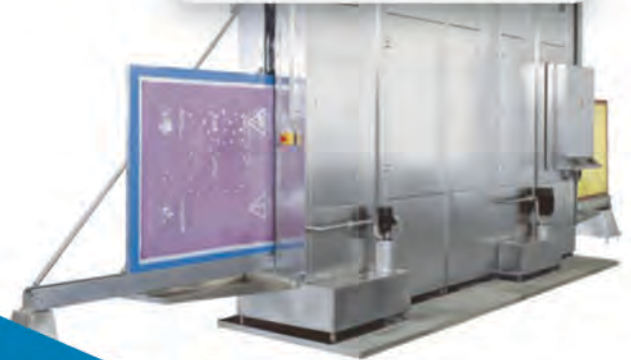

## Drum Dispensing Unit

- Convenient Chemical Pump Systems for Ultimate Productivity
- Includes two dual diaphragm Teflon and Polypropylene pumps, with room for one additional
- Includes all fittings, regulators, fluid lines, guns and spray nozzles

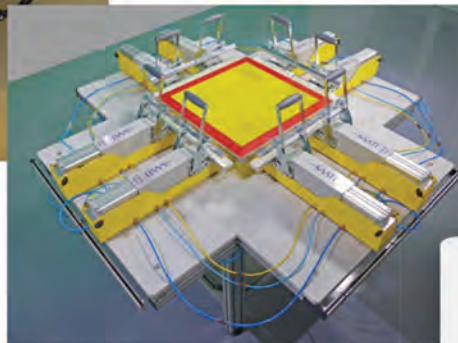

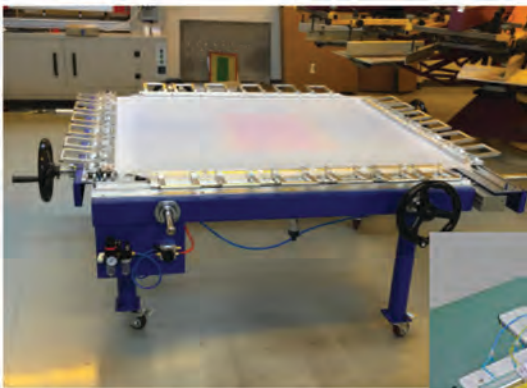

## Zentner Auto Reclaim Systems

- Virtually eliminates manual reclaiming
- German design and build
- Brushless design
- Daily cost savings
- 3 module, 5 module, and customization available

# STRETCHING

## Screen Stretching Systems

- Available in pneumatic or manual
- Available for 2 or 4 screens
- Custom configurations available

# QUALITY CONTROL

## Exposure Guides

- Eliminates miscalculated exposure time
- Easy, user friendly tools
- Multiple styles to choose from
- High-quality, multi-use films

## Meters

- Wide-range of precision equipment
- High-quality
- Quality control solutions for consistent print results

# SQUEEGEES

## Zentner SQ80

- Automatic cleaning of squeegees, floodbars, spatulas, etc.
- Recycles cleaning chemistry to minimize consumable costs
- 3 different cleaning cycles
- German design and build
