

Accessories

Side View Mirror

The cap mirror allows lateral side view during inspection.

Guide / Climbing Ball

Guide ball helps the probe to turn smoothly in the edge or angle. It also helps to climb up if facing multiple edges.

Extender Pole

An extender helps straighten the probe to inspect areas lower or higher than eye level.
 (Ideal for Articulation probe)

Storage Roller

Easy use, easy storage (Designed for Long probe).

Measure Software

Inspection Management Software is designed for image viewing, distance measuring, and image comparison. It helps inspectors to verify measurement after leaving the inspection site.
