Yes - 67%

No - 33%

LESSONS LEARNED

What an amazing three months it's been. When I started Blazed Pizza, I wanted to share the art and incredible flavor of a Neapolitan style pizza with everyone special to me. With a strong support system of family, friends and neighbors, I've been able to learn crucial lessons during the making and delivery of Blazed Pizza. From the type of ingredients I choose, to my mental state when making pizza, everything I do is with technique, flavor and quality in mind. My pizza is unlike the bland pizza you've tasted in Orange County. For now I will keep making great pizza and one day I will have my own shop where you can come sit and "Get Blazed" eating Blazed Pizza. Thank you all for your support and continued encouragement.

MY RIDE OR DIE

My Ride or Die is something we've called each other for 16 years. I wouldn't have it any other way. The importance of having support in my many endeavors is crucial to my success. My wife, who's been my ride or die for the past 16 years, has enthusiastically taken up the role of pizza delivery woman. She has always supported me as a creative, whether it's my stone carving, graphic design, clothing design, gardening and so much more. So if you see her car pull up, know you are getting an infectious smile along with some amazing pizza. Make sure she gets a great tip.

INFUSED PIZZA GOODNESS

As a lifelong cannabis advocate for health and responsible usage, hearing the news that cannabis will finally be legal in NY State was surreal to say the least. The first thing I thought was how can I help bridge the gap between cannabis users and non-users who may be interested in cannabis, but don't want to smoke it, or eat tiny edibles.

An idea occurred to include infusion to Blazed Pizza menu. Offering Mary Jane Margherita and Kush Pepperoni Pizza, Blazed Pizza uses its very own Cannabis infused olive oil called Flow'r (flower). We cater to the elderly who need relief, without having to smoke or eat a small gummy limb. Each infused pie includes approximately 81mg worth of cannabinoid per pie. Depending on tolerance, one or two slices would be all you need for relief and a "Blazed Experience."
