An Aluminum-Free, Multifunctional Polymer

Naturally derived and biodegradable **FARMAL™ AF 1100** multifunctional biopolymer is designed to provide a silky, smooth feel to the aluminum-free, eco-friendly formulas consumers want:

- Create silky, dry-to-the-touch sensory experiences
- Increase viscosity while stabilizing emulsions
- Oil absorbent to reduce greasiness and tackiness
- Faster, smoother absorption
- SPF-boosting
- Water-repellent
- Use for sunscreens, deodorants, lotions, creams, dry shampoo, color cosmetics, and aerosol sprays

Create products that match consumer needs.
