Notes:

*Design Proposal **does not** include graphic design time unless specifically called out in the above scope. Graphic Design can be provided to the client at a \$95/hr rate.

**Design phase encompasses a complete schematic and conceptual exploration of the vision for each program component. The design process may include an onsite visit(s), group charrette, and developmental reviews.*

**Deliverables for the design phase may include detailed photo-realistic renderings, clear location and intent of design concepts as well as an overview of any AV and/or interactive media if applicable.*

**Graphics represented within the Design Deliverables are conceptual and are not final artwork (unless otherwise specified).*

**Design and development of graphics, interactive content, video are not included unless otherwise noted in the above scope.*
