**N-GAGE**  
NIKE CUSTOMER SERVICE  
**A BETTER FIT**

Get ready to take the next N-gage. The result of intensive research and development - this prototype represents an entirely new concept in foot measurement technology.

Instead of taking simple length and width measurements, n-gage utilizes advanced video imaging and measuring software to analyze a complete matrix of dimensions for each foot.

In plain English, n-gage will help us gain an understanding of your feet beyond just a simple size - resulting in a better individual fit, and better individual performance.

**HAVE A FIT.**
