HYDROSOL SYSTEM INDUSTRIAL DIVISION

Industrial Chemical Cleaning

ABOUT OUR COMPANY

Hydrosol System has been in the Industrial Cleaning Business since 1948. It's Ohio location is ideal for servicing a majority of the United States Industrial and Pharmaceutical markets. We are a family-owned business, operating under our third generation of management.

Whether it's routine maintenance or a tight construction schedule, people need service with minimal notice. Our highly trained personnel and state of the art chemical cleaning units can be on-site with very short notice to meet our customer's immediate needs. Our patented cleaning methods are fast and effective. Hydrosol engineers work closely with customers to access their individual situations and develop site-specific action plans, time lines and cost estimates. We carefully scrutinize every detail and make certain our service meets each company's exact requirements.

Hydrosol embraces a culture of strong customer service, quality employees and innovative procedures. We strive to help our customer operate at peak efficiency and profitability.

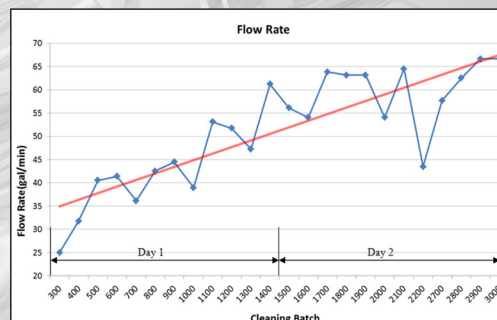

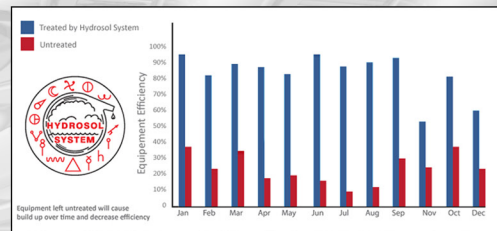

INDUSTRIAL MAINTENANCE SERVICES

Equipment with scale and deposit build up means lower efficiency, higher operating costs, shorter equipment life, unscheduled down time and reduced profits.

Hydrosol System can customize a cleaning and maintenance program for the following items:

- Heat Exchangers
- Condensers
- Reactor Vessels
- Water Lines
- Lime Lines
- Furnace Cooling Components
- Extruder Heads
- Boilers
- Continuous Caster Cooling Components

WE GET RESULTS!

INDUSTRIAL CONSTRUCTION SERVICES

Modern manufacturing facilities operate under precise conditions. Equipment and piping must be cleaned to meet strict ISO quality standards. Failure to include cleaning in bid packages can be costly to contractor and void equipment warranties to the end user.

Hydrosol System can assist you in the following areas:

- Antifreeze and Glycol Piping
- Automotive Fluid Lines
- Grease Line Cleaning
- Hydraulic Piping
- Lube Oil Piping
- Natural Gas Piping
- Oxygen Line Cleaning
- Paint Line Cleaning
- Peroxide Tanks and Piping
- Steam Line Cleaning
- Turbine Line Cleaning
- Urea Lines
- Weld Water Line Cleaning
