

REFLECTIONS

SPRING 2016

The beauty of nature inspires us this Spring. Our first story focuses on cool, crisp blues that hover above us in the sky, as well as those that flow after the Winter's thaw. We also find wonderful grey tones in the polished stones beneath the water's surface.

PROPER ENGLISH

SPRING 2016

The English Garden is a uniquely unstructured design that manages to create visual harmony across varying colors, tones, and shapes. The English Garden, like the proper English Gentleman, is not one to say 'look at me', but when a man with style is dressed like this, people will certainly take notice.
