

Cyber | Tech E&O Appetite Guide

1 Deployable Capacity

\$10M

Primary & excess, Cyber & Tech E&O offering with full excess follow form.

2 Revenue Authority

\$15B

Subject to class of business and exposure profile.

We specialize in complex cyber and technology risks that demand sophisticated coverage. Our craft underwriters deliver bespoke solutions for organizations with up to \$15B in annual revenue, backed by up to \$10M in Lloyd's market capacity across primary and excess layers. We understand the evolving landscape of enterprise technology, data-driven operations, and digital infrastructure. That's why we go beyond standard coverage—offering \$1M in notification costs outside your aggregate limit, plus specialized sub-limits for wrongful collection and contingent bodily injury. For Tech E&O risks, we provide full-limit intellectual property coverage outside the aggregate, ensuring comprehensive protection where you need it most.

Complex risks require expert partners. Let's craft your solution.

Cyber | Tech E&O Appetite Guide
