"KAN-THA"
"Kantha" means "a woman's art."
For centuries, women have used discarded
bits to layer and sew their together with
simple running stitches to create beautiful fabric.
The traditional Kantha (saree cover) once
was not merely a sign of art, but
simply what the poorest of women used to keep warm.
And that makes me angry!
Kantha has an aspect of intimacy. One cloth is today is used to
keep the cold away from them. Women without Kantha for
their loved ones, their children, their partners.
I feel like those garments those those
who wear them. I know the fabric is alive
with a woman's love that lives on... with you.
Thank you for your purchase!
Because of you, women can take care of
themselves and their families.
