"KAHN-taa"
"Kantha" meaning is a woman's art.
For centuries, women have used discarded
cloth to layer and sew them together with
simple running stitches to create beautiful fabric.
The functional Kantha (two-sided) truly
was the ultimate A-side and B-side.
Simply what the perfect fabrics used to help warm.
Fast that makes the analogy
Kantha has an aspect of intimacy. Old cloth is made to
keep the soul with love from harm. Women gifted Kantha for
their loved ones, their children, their partners.
I feel like these garments bless those
who wear them. I know this fabric is alive
with a woman's love that lives on... with you.
Thank you for your purchase!
Because of you, women can take care of
themselves and their families.
