

We are the performing arts and entertainment trade union.

We're made up of 47,000 performers and creative practitioners. Together we push for better pay, terms and conditions in the workplace. We're there for our members when they face challenges too - with advice, support and representation.

EQUITY

To actors: good work  
To all workers: good art

You are the union. By joining together you can win the fight for better pay and conditions in the entertainment industry. Whatever you want to do, your journey to changing the industry starts here.
